Junior Web Designer

Create innovative web experiences with an international reach

We are a growing technology company based in Sherwood Park, AB that is elevating the transportation industry. We build web-based tools, websites and plugins that help our customers sell more and reach their potential.

We're looking for a *Full Time Web Designer* to join our team. In this role, you will work independently to design websites for our clients but you will collaborate with our team of experienced programmers and have access to mentorship from our IT manager. This role is designed to be self-directed, we're counting on you to figure out the real problems and how to solve them.

You'll love this role if you are passionate about improving your skills, interested in using web standards and best practices, enjoy collaborating with others on a team and are detail-oriented.

Requirements:

- Demonstrable graphic design skills with a strong portfolio.
- Proficiency in HTML, CSS and JavaScript for rapid prototyping.
- Keen eye for consistency
- Proficiency in Photoshop, Illustrator or other digital design software (*you may need to optimize/fix client photos and images from time to time*).
- Proven work experience as a web designer (*have you designed websites before*).

Preferred Requirements (*things you don't need but would be good to have*):

- Experience with Umbraco.
- SEO knowledge
- Understanding of SASS
- Exposure to RDMS (SQL Server)
- Exposure to asp.net Microsoft Framework
- A love and respect W3C standards and web trends, technologies, and techniques.
- An understanding or experience with an Agile/Scrum development process.
- An eagerness to develop your skills and learn new technologies.

Responsibilities:

- Conceptualize original website design ideas that bring simplicity and user friendliness to complex roadblocks
- Create wireframes, storyboards, user flows, process flows and site maps to communicate interaction and design ideas
- Build websites from the ground-up for use with the Umbraco CMS
- Execute all visual design stages from concept to final hand-off to project coordinator
- Present and defend designs and key deliverables to peers and executive level stakeholders
- Establish and promote design guidelines, best practices and standards

What You Get:

- Opportunities to shape products for clients across North America
- Opportunities to develop your skills and learn new technologies
- Hourly Wage of \$17-20

The Company: Truck Part Solutions is a growing software company that is dedicated to bringing the latest cutting-edge technology to our customers in the form of simple, easy to use, web-based tools.

- We are forging the way in our industry, so you're input will affect an international audience.
- We're competitive, and we like to win (we're here to support you in making work-class products and we also run a competitive foosball league).
- Don't know much about trucks? It's okay! Only a few of us did when we were hired.
- We've been around for over 25 years, and we're not going anywhere.
